

Celebrating the fifth anniversary of our shareholders community

Our Community of Shareholders, Repsol en Acción, is a meeting point between the Company and individual shareholders.

We provide truthful, accurate, and transparent information so that our shareholders can find out how the Company is progressing, firsthand. They can discover how we work and feel proud to be part of the Company.

At Repsol, we want our shareholders to feel special. This is why we have designed a program that is full of exclusive advantages related to the world of culture, training, motoring, competition, social collaboration, and, of course, our products and services.

Repsol en Acción, a direct communication channel between the Company and our individual shareholders.

What do our shareholders think of the community?

It's been five years, and now there's almost 70,000 of us.
Over these years, we have got to understand the Company much better.
Our concerns about Repsol's progress have been answered...
We've been able to voice our own proposals
In this time, we've also had chances to learn.
Repsol has opened its doors to us...
... inviting us to a multitude of events and sharing their passions with us.

They've also offered us great, exclusive perks
And, of course, support is also part of our community.
Come on!
Come on!
Come on!
Congratulations!
Congratulations!
Congratulations, keep it up!
